

XAG V40 2021 Agricultural Unmanned Aerial Vehicle

Flying into a New Era of Agriculture

RealTerra™ One-Key Mapping
Auto-Stitching Readily Available

Greater Spray Width
Greater Spread Width Greater Flow
Fully Cover the Field

Revolutionary Dual-Rotor Design
Foldable Arms and Propellers

AI Prescription Map Precise
Spraying, Pesticide-Saving

SuperX®4 Intelligent Control System
Ultra-Intelligent Brain

Multi-Directional Radars Accurate
Obstacle Detection & Avoidance

An innovative imagination bursting out of XAG's long devotion to agricultural UAV industry

RealTerra™ realizes instant and intelligent mapping

RevoSpray™ brings off a precise and efficient spray

SuperX®4 Intelligent Control System
AI engine, smart core

Embark on a new era of unmanned farm management
A further leap towards precision agriculture

RevoCast™ achieves an even and efficient spread

Groundbreaking power system - stronger, smarter, safer

Multi-directional radars
Accurate obstacle detection and avoidance
